

综合垃圾处理器

Restaurant waste food disposal B26L

产品特点 Product Features

适用范围: 适用于家庭厨房或咖啡厅、茶座、KTV等娱乐场所;

产品优势:

1. 主体采用304不锈钢材质, 耐腐蚀防生锈, 健康环保.
2. 超大投料口搭配自动冲洗设计, 垃圾投放更高效更卫生.
3. 使用节能高转速交流电机, 低能耗、高功效、低噪音、使用寿命长.
4. 核心研磨装置采用特殊合金一体成型工艺, 具备高强度, 耐腐蚀的特点, 轻松应对各种食物垃圾.
5. 专利研磨系统, 六级齿环和三级刀盘完美适配, 轻松撕裂各种食物垃圾, 粉碎精度达2mm.
6. 专利涡轮增压排污设计, 不仅解决了传统垃圾处理器容易堵塞下水道的弊端, 还起到疏通下水道的作用.

产品功能:

- 无刀片研磨系统
- 反转功能
- 自动冲水功能
- 短路保护功能
- 漏电保护功能
- 过载保护功能

Application:

Applicable to catering industry, such as coffee shop, tea house, KTV, Hotel, restaurant, school cafeteria and so on. Can dispose various kinds of food waste such as fruit peel, vegetable stems, bones, shells, etc.

Advantages:

1. Constructed with stainless steel 304, Corrosion and rust resistance, health.
2. Extra-large feeding port design, ensures consistent efficiency and enhanced hygiene during waste disposal.
3. Motor: Unique AC motor with energy-saving and high rotational speed. can be in continuous operation, with long service life.
4. Core Grinding device forged from special alloy via integrated molding technology, offering high strength and corrosion resistance to effortlessly handle diverse food waste.
5. Patented Grinding system, features a six-stage cutting ring and three-stage cutting disc for optimal synergy, finely shredding waste with a precision of $\leq 2\text{mm}$.
6. Patented Turbocharged Drainage System, Eliminates pipe blockages common in conventional disposers while actively clearing drain pipelines.

Product Features

- Blade-free grinding system
- Reverse protection
- Auto water intake
- Short-circuit protection
- Leakage protection
- Overload protection

产品参数 Product parameters

产品型号 Product number	B26L
重量 Weight	12KG
功率 Power	600W
电压 Voltage	220V
转速 Rotating speed	2800/min
产品尺寸 Product Size	28*28*43cm
作业方式 Operating mode	批量型 Batch feed
处理能力 Capacity:	2.6L

整体式农村垃圾资源化处理设备

waste garbage biochemical treatment integral equipment IGD SERIES

产品特点Product Features

适用场所:适用于村庄、农场、小区、旅游景点、宾馆饭店、学校、养殖场等。

处理范围:食品垃圾、屠宰垃圾、生活垃圾、农场垃圾、生物垃圾、各种厨卫垃圾。

特色功能:垃圾提升机、粉碎机、螺旋提升机、发酵仓、烘干机、废气净化装置、污水净化池、PCL电脑控制系统。

产品优势:

1. 处理速度快, 分解效率高, 异味小, 4-8小时内减量率达到75%以上;
2. 处理物广泛, 实用性强, 只需达到分类标注即可;
3. 适应地域广泛, 室内外均可正常适用;
4. 规格齐全, 单台处理量从100KG-3000KG不等, 也可根据需求量身定制;
5. 使用安全、成熟可靠、美观耐用;
6. 全自动、智能化, 无需专人看管;
7. 舱内温度、进风温度、进风量、搅拌速度均可调节。

Feature

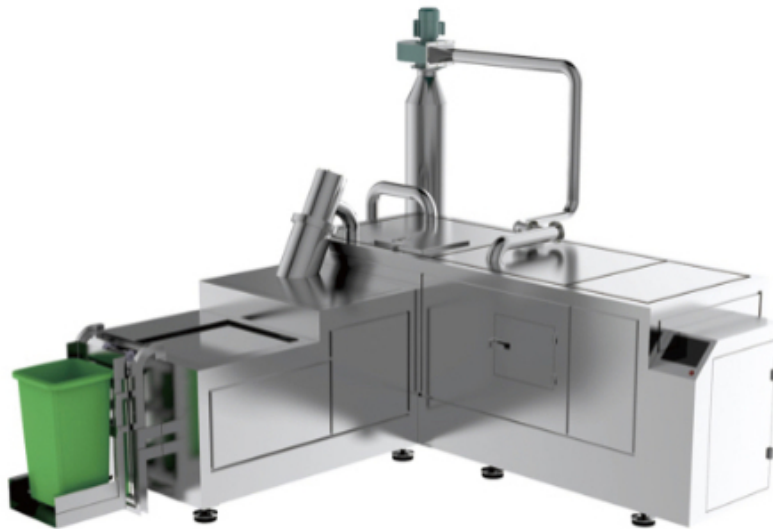

Application: village farms, residential areas, tourist attractions, hotels, schools, and livestock farms.

Processing: waste food, slaughterhouse waste, household waste, farm waste, biological waste, and kitchen waste.

Advantages:

1. Efficiency: Commonly fast grinding speed and strong disposal ability, high decomposition efficiency, reduction rate over 75%, in 4-8 hours
2. Processing range: wide processing range, just meet a criterion of garbage classification, high practicability
3. Adaptability: No special requirement for application places or area
4. Diversity: Unit machine processing capacity 100K-3000KG available. Also custom-built accept
5. Intelligent: Grinding rate...fermentation room temperature, input air temperature & capacity can be adjustable
6. Convenience: full-automatic, don't need pay special attention during operation process
